

ENVIRONMENTAL  
CLEARANCE

PARIVESH

(Pro-Active and Responsive Facilitation by Interactive,  
and Virtuous Environmental Single-Window Hub)

Government of India  
Ministry of Environment, Forest and Climate Change  
(Issued by the State Environment Impact Assessment  
Authority(SEIAA), Orissa)

To,

The Direction  
SHREE MONOLITHICS PVT. LTD.  
Shree House, Plot No-132/C, Sector-9, CDA, Cuttack, Pincode-753014 -  
756120

Subject: Grant of Environmental Clearance (EC) to the proposed Project Activity  
under the provision of EIA Notification 2006-regarding

Sir/Madam,

This is in reference to your application for Environmental Clearance (EC)  
in respect of project submitted to the SEIAA vide proposal number  
SIA/OR/IND/285271/2022 dated 09 Aug 2022. The particulars of the environmental  
clearance granted to the project are as below:

- |   |   |
|---|---|
| 1. EC Identification No.                      | EC23B007OR176384  |
| 2. File No.                                   | 285271/32-IND/08-2022   |
| 3. Project Type                               | New   |
| 4. Category                                   | B2  |
| 5. Project/Activity including<br>Schedule No. | 2(b) Mineral beneficiation  |
| 6. Name of Project                            | Additional Installation of Chrome Ore<br>Beneficiation Unit of throughput capacity<br>18,500 TPA within the existing campus of<br>M/s Shree Monolithics Pvt. Ltd. Over an<br>area of 7.76 Acre or 3.14 Ha. In Plot No.<br>30/301, at Village Jaminibandha, P.O.<br>Bhandari |
| 7. Name of Company/Organization               | SHREE MONOLITHICS PVT. LTD.   |
| 8. Location of Project                        | Orissa  |
| 9. TOR Date                                   | N/A   |

The project details along with terms and conditions are appended herewith from page  
no 2 onwards.

Date: 13/03/2023

(e-signed)  
Dr. K. Murugesan, IFS  
Member Secretary  
SEIAA - (Orissa)

Note: A valid environmental clearance shall be one that has EC identification  
number & E-Sign generated from PARIVESH. Please quote identification  
number in all future correspondence

This is a computer generated cover page.

SEIAA File No. 285271/32-IND/08-2022

Subject: Application of EC for Proposed Additional installation of Chrome Ore Beneficiation Unit of throughput capacity 18,500 TPA within the existing campus Over an area of 7.76 Acre or 3.14 Ha. In Plot No. 30/301, at Village: Jaminibandha, P.O: Bhandari, District- Bhadrak by M/s Shree Monolithics Pvt. Ltd-Environmental Clearance reg.

This has reference to your online proposal No. SIA/OR/IND/285271/2022 dated 09.08.2022, submitted to SEIAA, Odisha for grant of Environmental Clearance(EC) for Additional installation of Chrome Ore Beneficiation Unit of throughput capacity 18,500 TPA within the existing campus Over an area of 7.76 acres or 3.14 ha in plot no. 30/301 located at Village: Jaminibandha, P.O: Bhandaripokhari, District-Bhadrak by M/s Shree Monolithics Pvt. Ltd in terms of the provisions of the Environment Impact Assessment(EIA) Notification, 2006 under the Environment(Protection) Act,1986 and subsequent amendments thereto.

2. Proposal in Brief:-

Proposal No.	SIA/OR/IND/285271/2022
Date of Application	09.08.2022
File No.	285271/32-IND/08-2022
Project Type	EC
Category	B2
Project Activity including Schedule No.	2(b) Mineral Beneficiation
Name of the Project	Proposal for EC for Additional installation of Chrome Ore Beneficiation Unit of throughput capacity 18,500 TPA within the existing campus of M/s Shree Monolithics Pvt. Ltd. Over an area of 7.76 Acre or 3.14 Ha. In Plot No. 30/301, at Village: Jaminibandha, P.O: Bhandaripokhari, Dist- Bhadrak
Name of the company/Organization	Shree Monolithics Pvt. Ltd. Applicant: Sri.Chandra Sekhar Samal, Director
Location of Project	At Village- Jaminibandha, Tahasil- Bhandaripokhari, Dist: Bhadrak
ToR Date	03.03.2022

Statutory body constituted by Ministry of Environment, Forest & Climate Change under Environment (Protection) Act, 1986

3. Project Details: The highlights of the proposal as ascertained from the application as submitted by PP and as revealed from proceedings/discussion held during the meeting of SEIAA, are given as under.

- (i) This is a proposal of Environmental Clearance for Proposed Additional installation of Chrome Ore Beneficiation Unit of throughput capacity 18,500 TPA within the existing campus Over an area of 7.76 acres or 3.14 ha in plot no. 30/301, at Village: Jaminibandha, Tahasil-Bhandaripokhari, Dist-Bhadrak by M/s Shree Monolithics Pvt. Ltd filed by Sri Chandra Sekhar Samal.
- (ii) M/s Shree Monolithics Pvt. Ltd. proposes to establish a chrome ore beneficiation plant with throughput capacity of 18,500 TPA within the existing Chrome Monolithic Unit over an area of 7.76 Acres or 3.14 Ha located at Village- Jaminibandha, Tahasil-Bhandaripokhari, Dist- Bhadrak, Odisha.
- (iii) Existing Project Details - The Project has an existing Chrome Monolithic unit with Refractory: 2500 MT/month, Refractory mortar: 500 MT/month, Ramming mass: 250 MT/month, Nozzle filling compound: 500 MT/month, Felting mass: 250 MT/month, Chrome Monolythic: 500 MT/month, Chrome sand: 500 MT/ month, High carbon Ferrochrome: 2000 MT/month (reclaimed from nonhazardous slag of steel and ferro alloys) and Ferro Alloy metal: 50,000 MT/ annum (reclaimed from non-hazardous slag of steel and ferro alloys).
- (iv) The existing chrome monolithic unit has obtained Consent to Establish vide letter no - 428/NOC/1473 dated 15.02.2010 and Consent to Operate vide Consent Order NO- 170 ( TO-2956/2017 dated 31.08.2018 valid upto 31.03.2022.
- (v) Proposed Configuration of project-The Project has proposed an additional installation of a beneficiation plant with throughput of 18500 TPA within the existing unit.
- (vi) The Terms of Reference(ToR) was granted by SEIAA vide letter no. 4180/SEIAA dated 03.03.2022 for undertaking detailed EIA studies for the project.
- (vii) Baseline monitoring studies has been carried out for the period October '2020 to December '2020.
- (viii) Location and Connectivity - The project is located at Village-Jaminibandha over an area of 7.76 Acres in Plot No:25/285,19,27,17,18,30,20,21,96/321,29,30/301. Khata No.: 9/9, 92/67, 9/5, 92/61, 9/6, 92/65, 92/62 and 92/64. The project can be identified in Survey of India Toposheet No.:73L/5 & 73K/8; Latitude:20°57'26.88"N Longitude:86°21'21.67"E. The project site is well accessible through NH 5 at 0.1km and railway station , East Coast Railway is at 7Km. Nearest River Baitarani is at 7km. Nearest habitation is Rebo - 1km and nearest town is Bhandaripokhari-2 Km.
- (ix) Water Requirement - Total water requirement for the proposed project will be 150 KLD and make up water requirement will be 10 KLD. Out of the makeup water requirement 10 KLD will be used for drinking purpose sourced from borewell and rest water requirement of 9.0 KLD will be met from rain water harvesting pond and ground water. There is a proposal for the installation of ETP of 50 KL capacity for the beneficiation plant to treat waste water from beneficiation plant & surface run off.

Bargabanti Sena  
Sarapanch  
Dakhinabad G.P. 14/04/2023

STATE ENVIRONMENT IMPACT ASSESSMENT AUTHORITY, ODISHA

SPEI Unit-IX, Bhubaneswar-751022, Tel: 0674-3510075, Email: seiaaodisha@gmail.com

constituted by Ministry of Environment, Forest & Climate Change under Environment (Protection) Act, 1986)

- (xi) Rain Harvesting System-For water conservation two rain water storage tanks of dimension 50 x 80 x 3 m has been constructed within the plant premises to store the harvested quantity of rain water and for use. Total storage capacity of the tank will be 12000 Cu.m.
- (xii) Power Requirement - The total power requirement is estimated as 100 KVA. It is proposed to draw the power from the NESCO.
- (xiii) Employment Generation-The project generates employment opportunities for 12 personnel which includes operator -2, supervisor 2, 4 nos of semi skilled labour and 4no of unskilled labour.
- (xiv) Raw materials and Process - The raw material i.e. low grade chrome ore will be sourced from mines of Odisha Mining Corporation, Sukinda which is located at a distance of 46 Km from the project site. The transportation of ore from the mines to the project site will be done through covered trucks. The beneficiation process of chrome ore involves up-gradation of low grade chrome ore (<40% Cr<sub>2</sub>O<sub>3</sub>) to semi high grade ore (50-65% of Cr<sub>2</sub>O<sub>3</sub>). The beneficiation process of chrome ore include dispersal of the ferruginous coating and removal of the gangue material from the ore. Before the low grade feed to the beneficiation plant, the chromite ore lumps will be screened and oversized material i.e 20 to 100 mm size material will be sent to the grinding unit.
- (xv) Waste Generation - The major solid waste will be the tailings generated from the beneficiation process. The quantity of tailings to be 4700 TPA having <10% Cr<sub>2</sub>O<sub>3</sub>. The tailings will be collected & treated with Ferro-Sulphate solution and dried through a filter press. Further, the tailing will be stored in the tailing dump. After drying the tailing will be blended in the chrome refractory mortar as per the demand of the customer.
- (xvi) Greenbelt Development- There is plantation of 100 trees within the plant boundary and with the EC proposal there is the planning for three tier plantation along the boundary along with open space plantation. An area of 8903 Sq.mt has been allocated for green belt development with about 2200 saplings plantation proposal.
- (xvii) Project Cost - Total cost of the project will be 1.75 Crores. For implementation for EMP for the project the allocated capital budget will be 32 lakhs and recurring budget will be 5 lakhs.
- (xviii) CSR Activities - As per the social need assessment and suggestion of village committee a CSR plan has been prepared with a proposed cost estimate of 11.5 Lakhs which will be utilised within a period of 3 years.
- (xix) The Environment Consultant M/s Kalyani Laboratories Pvt. Ltd., Bhubaneswar along with the project proponent made a detailed presentation on the proposal before the Committee on 02.09.2022
- (xx) The PP submitted ADS to SEAC on 08.12.2022.
4. This proposal conforms to the item no. 2(b)-' Mineral Beneficiation' in the schedule of EIA Notification, 2006 as amended time to time, and the Mineral Beneficiation project falls under Category B2.
5. The MAC have appraised the proposal for consideration of EC in its meeting dated 01.01.2023 and recommended for grant of Environmental Clearance for the project valid for a period of 10 years, stipulating various conditions.

D.H.

Barganani Sena

Dakhinabad G.P. 14/02/2023

STATE ENVIRONMENT IMPACT ASSESSMENT AUTHORITY, ODISHA

SRI-2/L. Unit-IX, Bhubaneswar-751022, Tel. 0674-3510075. Email: seiaaodisha@gmail.com

statutory body constituted by Ministry of Environment, Forest & Climate Change under Environment (Protection) Act, 1986

6. The matter was further examined in the State Environment Impact Assessment Authority (SEIAA), Odisha in its 109<sup>th</sup> meeting held on 24.02.2023, recommendation of SEAC for grant of environmental Clearance in accordance with the EIA Notification, 2006 and further amendments thereto. After detailed deliberation in the matter, the Authority decided to grant EC with specific and stipulated conditions as recommended by SEAC for the Beneficiation plant.
7. Environmental Clearance (EC) is granted to the project valid for a period of 10 years under the provisions of EIA Notification No. S.O. 1533 (E) dated the 14<sup>th</sup> September, 2006 of the Government of India in the erstwhile Ministry of Environment and Forests, as amended from time to time for "Proposed Additional installation of Chrome Ore Beneficiation Unit of throughput capacity 18,500 TPA within the existing campus Over an area of 7.76 Acre or 3.14 Ha. In Plot No. 30/301, at Village: Jaminibandha, Tahasil-Bhandaripokhari, District-Bhadrak of M/s Shree Monolithics Pvt. Ltd" with the following stipulations (specific and standard), environmental conditions and safeguards.

Stipulations:

A. Specific conditions:

- (i) The waste water that will be generated from the tailings shall be treated in ETP wherein hexavalent Chromium shall be reduced to trivalent Chromium by dosing it with appropriate standard chemical following due technical procedure.
- (ii) The PP shall obtain NOC to use the Panchayat roads from the concerned BDO for transportation of both input materials and finished products including the responsibility of maintaining the road if damaged by such transportation.
- (iii) The big trees including the fruit bearing trees shall not be cut and if necessitated to relocate, the same may be de-rooted and replanted in green belt area/ alongside the boundary wall. If it becomes inevitable to cut the said trees, the same may be done only with due necessary permission from appropriate authority of forest department, Government of Odisha with necessary compensatory plantation/ afforestation as per the applicable rules/ laws.

B. Standard Conditions -

1. Statutory compliance:

- (i) The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project, if applicable.
- (ii) The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.
- (iii) The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of

54

Bansarani Sena  
Sarapanch  
Dakhinabad G.P. 14/04/2023

Pollution) Act, 1974 from the concerned State pollution Control Board.

- (vi) The project proponent shall obtain the necessary permission from the Central Ground Water Authority and other concerned authority, in case of drawl of ground water / from the competent authority concerned in case of drawl of surface water required for the project.
- (v) The project proponent shall obtain authorization under the Hazardous and other Waste Management Rules, 2016 as amended from time to time.

## II. Air quality monitoring and preservation

- (i) The project proponent shall monitor fugitive emissions in the plant premises at least once in every quarter through labs recognized under Environment (Protection) Act, 1986.
- (ii) The project proponent shall submit monthly summary report of continuous stack emission and air quality monitoring and results of manual stack monitoring and manual monitoring of air quality /fugitive emissions to Regional Office of MoEF&CC, Zonal office of CPCB and Regional Office of SPCB along with six-monthly monitoring report.
- (iii) Appropriate Air Pollution Control (APC) system shall be provided for all the dust generating points including fugitive dust from all vulnerable sources, so as to comply prescribed stack emission and fugitive emission standards.
- (iv) The project proponent use leak proof trucks/dumpers carrying ore and other raw materials and cover them with tarpaulin.
- (v) Wind shelter fence and chemical spraying shall be provided on the raw material stock piles.
- (vi) Design the ventilation system for adequate air changes as per ACGIH document for all tunnels, motor houses, Oil Cellars.
- (vii) The project proponent shall carry out conditioning of the ore with water to mitigate fugitive dust emission, without affecting flow of ore in the ore processing and handling areas.
- (viii) Effective safeguard measures such as regular water sprinkling shall be carried out in critical areas prone to air pollution and having high levels of air pollutants such as haul road, loading and unloading point and transfer points. It shall be ensured that the Ambient Air Quality parameters conform to the National ambient air quality standards.
- (ix) The transportation of mineral shall be carried out through the covered trucks. Vehicular emissions shall be kept under control and regularly monitored. Measures shall be taken for maintenance of vehicles used in beneficiation operations and in transportation of ore to the beneficiation plant. The vehicles carrying the mineral shall not be overloaded.
- (x) Mineral handling area shall be provided with adequate number of high efficiency dust extraction system. Loading and unloading areas including all the transfer points should also have efficient dust control arrangements. These should be properly maintained and operated.
- (xi) Occupational health surveillance program of the workers shall be undertaken periodically to

Statutory body constituted by Ministry of Environment, Forest & Climate Change under Environment (Protection) Act, 1986

observe any contractions due to exposure to dust and take corrective measures, if needed. Health records of the workers shall be maintained.

- (xvii) Regular Ambient Air Quality Monitoring shall be carried out. The monitoring stations will be set up in consultation with the SPCB. At least four ambient air quality monitoring stations shall be established in the downward direction as well as where maximum ground level concentration of PM<sub>2.5</sub>, PM<sub>10</sub>, SO<sub>2</sub> and NO<sub>x</sub> are anticipated in consultation with the State Pollution control Board. It will be ensured that at least one monitoring station is set up in up-wind & in down-wind direction along with those in other directions. The instruments used for ambient air quality monitoring shall be calibrated regularly.
- (xviii) Data on ambient air quality (PM<sub>2.5</sub>, PM<sub>10</sub>, SO<sub>2</sub>, NO<sub>x</sub>) shall be regularly submitted to the Ministry including its Regional office located at Bhubaneswar and the State Pollution Control Board/Central Pollution Control Board once in six months.

III. Water quality monitoring and preservation

- (i) The project proponent shall monitor regularly ground water quality at least twice a year (pre and post monsoon) at sufficient numbers of piezometers/sampling wells in the plant and adjacent areas through labs recognized under Environment (Protection) Act, 1986 and NABL accredited laboratories.
- (ii) Sewage Treatment Plant shall be provided for treatment of domestic wastewater to meet the prescribed standards.
- (iii) Garland drains and collection pits shall be provided for each stock pile to arrest the runoff in the event of heavy rains and to check the water pollution due to surface run off.
- (iv) The project proponent shall practice rainwater harvesting to maximum possible extent.
- (v) The effluent from the ore beneficiation plant shall be treated in the tailing thickener and the tailings slurry shall be transported through a closed pipeline to the tailing pond.
- (vi) The tailing pond shall be lined with appropriate impervious lining on all sides as well as the bottom to prevent any leachate going from the tailing pond into groundwater.
- (vii) The garland drain shall be constructed around the tailing pond before the starting operation on the project.
- (viii) The decanted water from the tailing pond shall be re-circulated and there should be zero discharge from the tailing pond.
- (ix) Appropriate technology shall be used for maximum recovery of ore in order to reduce slurry discharge and to increase the life of the tailing pond.
- (x) Garland drains with appropriate size, gradient and length shall be constructed to arrest silt and sediment flows from ore dumps and directly into the water bodies. The water so collected shall be utilized for watering the roads, green belt development etc. The drains shall be regularly desilted particularly after monsoon and maintained properly.

133

Barga nani Sena  
Sarapanch  
Dakhinabadi G.P. 14/04/2023

- (xvi) Effluents containing Cr+6 shall be treated to meet the prescribed standards before reuse. Effluent Treatment Plant should be provided for treatment of wastewater generated from the beneficiation plant.
- (xvii) Run off from the mineral and reject dumps and other surface run off should be analyzed for Cr+6 and in case its concentration is found higher than the permissible limit the water should be treated before reuse.
- (xviii) Adhere to "Zero Liquid Discharge".
- (xix) Regular monitoring of water quality for surface water sources as well as ground water sources shall be carried out. The groundwater shall be monitored downstream of beneficiation plant as well as tailing pond upto groundwater table and record of monitoring data should be maintained and submitted on six monthly basis to the Ministry of Environment and Forests, its Regional Office, Bhubaneswar, the Central Ground Water Authority, the Regional Director Central Ground Water Board and the State Pollution Control Board.
- (xx) Suitable rainwater harvesting measures on long term basis shall be planned and implemented in consultation with the Regional Director, Central Ground Water Board.
- (xxi) Appropriate mitigative measures shall be taken to prevent pollution of the nearby surface water source in consultation with the State Pollution control Board.

#### IV. Noise monitoring and prevention

- (i) Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Office, MoEF&CC, Govt. of India, Bhubaneswar as well as SEIAA, Odisha as a part of six-monthly compliance report.
- (ii) The ambient noise levels should conform to the standards prescribed under E(P)A Rules, 1986 viz. 75 dB(A) during day time and 70 dB(A) during night time

#### V. Energy Conservation measures

- (i) Provide solar power generation on roof tops of buildings, for solar light system for all common areas, street lights, parking around project area and maintain the same regularly.
- (ii) Provide LED lights in their offices and residential areas.

#### VI. Waste management

- (i) The waste oil, grease and other hazardous waste shall be disposed of as per the Hazardous & Other waste (Management & Transboundary Movement) Rules, 2016
- (ii) Kitchen waste shall be composted or converted to biogas for further use. (to be decided on case to case basis depending on type and size of plant)
- (iii) Separate impervious concrete pits for disposal of sludge shall be provided for the safe disposal of sludge generated from the beneficiation operation.

#### VII. Green Belt and EMP

- (i) Green belt shall be developed in an area equal to 33% of the plant area with a native tree species in accordance with CPCB guidelines. The greenbelt shall inter alia cover the entire periphery of the plant
- (ii) Plantation shall be raised all around the beneficiation plant site and the tailing pond around the plant, tailing disposal area, roads etc. by planting the native species in consultation with the local DFO/ Agriculture Department.

#### VIII. Human Health Issues

- (i) Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
- (ii) The project proponent shall carry out heat stress analysis for the workmen who work in high temperature work zone and provide Personal Protection Equipment (PPE) as per the norms of Factory Act.
- (iii) Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
- (iv) Occupational health surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.

#### IX. Corporate Environment Responsibility

- (i) The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No. 22-65/2017-1 A.III dated 1<sup>st</sup> May 2018, as applicable, regarding Corporate Environment Responsibility.
- (ii) The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental / forest /wildlife norms/ conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the Regional Office, MoEF&CC, Govt. of India, Bhubaneswar as well as SEIAA, Odisha as a part of six-monthly report.
- (iii) A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly to the head of the organization.

34

- (iv) Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Regional Office, MoEF&CC, Govt. of India, Bhubaneswar as well as SEIAA, Odisha along with the Six Monthly Compliance Report.
- (v) Self-environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out
- (vi) All the recommendations made in the Charter on Corporate Responsibility for Environment Protection (CREP) for the Mineral Beneficiation plants shall be implemented.

#### X. Miscellaneous

- (i) The project proponent shall make public the environmental clearance granted for their project along with the environmental conditions and safeguards at their cost by prominently advertising it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days and in addition this shall also be displayed in the project proponent's website permanently.
- (ii) The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
- (iii) It shall be mandatory for the project management to submit half yearly compliance reports on the status of implementation of the above stipulated environmental safeguards to the SEIAA, Odisha / Integrated Regional Office of the MoEF& CC, Bhubaneswar in soft copies on 1<sup>st</sup> day of June and December of each calendar year. The proponent shall also upload the compliance report including results of monitored data, as applicable in the website of the Ministry for monitoring of EC Conditions, failing which EC is liable to be revoked.
- (iv) The construction and demolition wastes to be generated from the proposed project shall be disposed of in accordance with the provision under "Construction & Demolition Wastes Management Rules 2016".
- (v) The project proponent shall monitor the criteria pollutants level namely; PM<sub>10</sub>, SO<sub>2</sub>, NO<sub>x</sub> (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the projects and display the same at a convenient location for disclosure to the public and put on the website of the company.

statutory body constituted by Ministry of Environment, Forest & Climate Change under Environment  
(Protection) Act, 1986)

- (vii) The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.
- (viii) The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.
- (ix) The project proponent shall inform the Regional Office, MoEF&CC, Govt. of India, Bhubaneswar as well as SEIAA, Odisha the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.
- (ix) The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.
- (ix) The project proponent shall abide by all the commitments and recommendations made in the EIA/EIMP report and also that during their presentation to the State Level Expert Appraisal Committee.
- (xi) No further expansion or modifications in the plant shall be carried out without prior approval of the SEIAA, Odisha.
- (xii) Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.
- (xiii) The SEIAA, Odisha may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
- (xiv) The SEIAA, Odisha reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.
- (xv) The Regional Office, MoEF&CC, Govt. of India, Bhubaneswar shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.
- (xvi) The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.
